# Community Consultation Survey

## Join Us in Shaping the Future of Parkinson's Care in Australia

As part of the development of the National Parkinson's Action Plan (NPAP), an online survey is now 'live'.

We invite those living with Parkinson's, family members and un-paid carers to help us understand the experience of living with Parkinson's in Australia.

**To complete the survey click here.**

**[Start Survey](#)**

At the end of the survey you may be asked if you would like to participate in further online 'one on one' or group workshops.

By sharing your experiences and insights, you will help us develop a robust and inclusive action plan that addresses the most pressing needs of the Parkinson's community.

If you require further support, please call 1800 644 189
