

**APRIL 2022**

# Parkinson's Awareness Month

**Today, 219,000 Australians have Parkinson's\***

**Parkinson's affects the nervous system. It's a progressive, degenerative condition, affecting the most important things we do as human beings – talking, eating and moving.**

**Parkinson's is the second most common neurological condition seen in the community.**

**Neurological disorders are now the leading cause of disabilities in the world and Parkinson's is among the fastest growing.**

**Let's change lives - and fight for a world free of Parkinson's, because together we can.**

**If you need to talk to someone, call our free confidential information line on: 1800 644 189**
