

How to find the Social, Promotions, and Spam folders in Gmail

Where can I find my join link email?

You want your join link email from Fight Parkinson's to arrive in your main **Inbox** (outlined below in green).

However, in some cases the join link email could end up on the **Social, Promotions, or Spam** folders (outlined below in red). To view the Social and Promotions folders, you may need to select the Categories heading to reveal them.

How can I ensure future emails go to my inbox?

The following steps will send your join link email to your main inbox, instead of the spam folder:

- Open the join link email from Fight Parkinson's.
- Hover your mouse cursor over the sender's name or the icon next to the name, until a small pop-up window appears. (The places to hover are outlined in yellow below.)
- Click the **Contacts** button at the top-right corner of the small pop-up window (outlined in green below) to add Fight Parkinson's to your approved contacts list.
